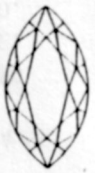
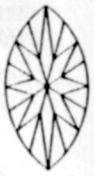
# LEE

## VARIABLE SPEED FACET UNITS, FACET HEADS, ACCESSORIES.

PRICE LIST
#A-4/1/85





**IMPROVEMENTS:** Mast platform reinforced slot replaces tapped holes for fast adjusting in any direction by slightly loosening large thumbnut. Arbor thumbnut & thick Nylon washers replace hex nut, etc. to simplify lap changes, reduce danger to gems. Speed control of Permanent Magnet motor models thumbscrews to top of motor for more space around lap, easy removal for shipping, etc. More LAP UNIT, OK FACET HEAD CHUCK, .1° ANGLE POINTER, etc. IMPROVEMENTS below & elsewhere.

**BASIC FACET UNITS** do not include laps, abrasives, dop wax, heat source. Laps & Accessories 6 & 8" Sets listed further below or may be selected individually. Anyone requiring an alcohol lamp or etc. for dopping may prefer a small propane torch such as BernzOmatic UL100 available at hardware dealers and also efficient for hard or soft soldering of jewelry, wiring, etc.
